PROVIDE AN EMERGENCY FIRST AID RESPONSE IN AN EDUCATION AND CARE SETTING XPRESS

:: course summary sheet FA07 ::

Who should attend:(cont.) All businesses in Australia have to provide a safe workplace for all employees, students, visitors and contractors. Further first aid training, such as HLTAID006 Provide advanced first aid, may be required to meet those obligations in case of an accident and or injury to anyone on your premises

Course Suitability: This course is for those with existing first aid experience and who are confident in their skills. It is appropriate for experienced first aiders, health care professionals and those who update their first aid skills regularly

Prerequisites: Although there are no prerequisites for undertaking this course, please note that all pre-course homework **must** be completed prior to attending.

Note that the Learner will need to meet the required ACSF levels and Foundation Skills requirements to successfully complete the course.

It is important to note that the HLTAID competency standards do require a level of physical ability to meet the evidence requirements for assessment. Due to the potential risk to health and safety it is important to note that learners must be able to perform at least 4 minutes of uninterrupted CPR on an adult and child manikin placed on the floor. These standards relate to the level of performance required to provide resuscitation and respond to an emergency situation where there may be risk to life.

Elements:

Respond to an Emergency Situation;

- Recognise an emergency situation
- Identify, assess and manage immediate hazards to health and safety of self and others
- Assess the casualty and recognise the need for first aid response
- Assess the situation and seek assistance from emergency response services

Apply Appropriate Emergency First Aid Procedures;

- Perform cardiopulmonary resuscitation (CPR) in accordance with Australian Resuscitation Council (ARC) guidelines
- Provide first aid in accordance with established first aid principles
- Ensure casualty feels safe, secure and supported
- Obtain consent from casualty, caregiver, registered medical practitioners or medical emergency services where possible
- Use available resources and equipment to make the casualty as comfortable as possible
- Operate first aid equipment according to manufacturer's instructions
- Monitor the casualty's condition and respond in accordance with first aid principles

Communicate Details of the Incident;

- Accurately convey incident details to emergency response services
- Report details of incident to supervisor
- Complete relevant workplace documentation, including incident report form
- Report details of incidents involving babies and children to parents and/or caregivers
- Follow workplace procedures to report serious incidents to the regulatory authority
- Maintain confidentiality of records and information in line with statutory and/or organisational policies

Evaluate the incident and own performance;

- Recognise the possible psychological impacts on self, other rescuers and children
- Talk with children about their emotions and responses to events
- Participate in debriefing with supervisor
